EVERBLOOMING ROSES

CHOICE 2-YEAR-OLD PLANTS, EACH 69c

Your Selection of 6, Postpaid $3.75 **Your Selection of 12, Postpaid $6.95**

WILL BLOOM THIS YEAR

GOLDEN CHARM

An exquisite rose of bright buttercup yellow with the buds opening into long lasting flowers.

K. A. VICTORIA

We think this one of the best white roses grown. Beautiful large, white buds and blooms.

RED RADIANCE

A beautiful red. Blooms cover the bush almost continuously throughout the season. The number one rose.

PRES. HERBERT HOOVER

Large multi-colored flowers combining yellow, copper and flame tones. Vigorous; freeblooming.

ETOILE de HOLLANDE

Truly the queen of red roses. Large, deep crimson flowers with velvety finish and rich fragrance.

EDITOR McFARLAND

This lovely pink rose has long stems and perfect blooms. One of the finest pink roses.

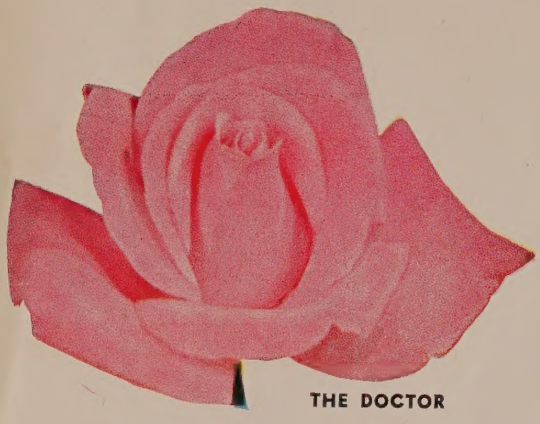
INSIDE

PICTURE

SOUER THERESE

PINK RADIANCE



THE DOCTOR

FLORIBUNDA ROSES

FLORADORA. Unusual scarlet-red clusters. Each plant bears literally hundreds of blooms during the long season from early June until frost. One of the hardiest freest flowering plants you have ever grown.

RED RIPPLES. One of the most scintillating red floribundas we have ever seen. Buds are perfect and hold well on the plant or after cutting. Plants bloom continually from June until frost. Petals have wavy rippling edges.

Price same as Bush Roses.

POINSETTIA

CLIMBING ROSES

CLIMBING PAUL'S SCARLET. Midseason. This popular rose is the most admired of all. Produces sheets of blazing, unfading scarlet blooms.

CLIMBING TALISMAN. A truly distinctive climber. Buds are orange-yellow opening into large blooms of salmon-orange shaded with red and gold.

CLIMBING DUPONT. Long pointed buds of reddish gold. Color lightens with age.

CLIMBING K. A. VICTORIA. A leading white climber because of the beautifully formed, pure white buds, and the magnificent high-centered fully double flowers.

CLIMBING EDITOR McFARLAND. Very fragrant, glowing pink slightly suffused yellow. Vigorous; excellent bloomer.

Price same as Bush Roses.

Your Selection of 12, postpaid.... 6.95

Soeur Therese

The long-pointed buds are chrome-yellow, heavily marked with carmine, the open flower is rich daffodil-yellow.

Pink Radiance

This is one of the best, strong growing bushes we grow. Covered with big double blossoms from early spring until frost.

The Doctor

A sparkling pink rose with pointed buds. One of the largest of all blooms and one of the sweetest.

Poinsettia

A rose of true poinsettia color. The buds are ideal in form, long pointed which open to a full petaled rose.

Picture

Perfect pink buds and flowers with warm rich salmon undertones. Very double, slightly fragrant, and long lasting. Vigorous and free blooming.

Konigin Luise

Good white roses are not very plentiful, but here is a fine one. Long buds of ivory white that change into the purest white as they open.

Grenoble

A most beautiful large, deep carmine-red rose. One of America's most fragrant roses.

Talisman

Gorgeous colors in gold, apricot-yellow, orange, deep pink and old rose. Long pointed buds. A great favorite.

Planting Helps for Your Success

Nature alone cannot take care of transplanted stock. You must do your part.

Brief Pointers On Planting New Rose Bushes

(1) Do not plant near or under large trees or shrubs. Wet marshy ground is unfavorable as is soil with high alkalinity. Otherwise if roses can receive at least a half day of sunlight they will have few complaints where they are planted.

(2) Dig holes approximately 10" to 12" deep and 16" to 18" wide.

(3) Avoid the excessive use of strong fertilizers or manures about the roots at time of planting. A cupful of any standard brand complete fertilizer mixed with the soil at the time of planting is safe and advantageous.

Where the soil is poor or bad the use of mountain soil is advised. Mix 25% Peat Moss with the soil. Leaf mold may be substituted for Peat Moss with good results.

(4) It is helpful to make a cone of the above soil mixture in the bottom of the hole. Then spread the roots out evenly, placing the apex of the roots on the top of the cone, then pull the rest of the soil mixture in about the roots, shaking the bush back and forth slightly as you do so. Leave the graft or bud union about 1" below ground level. Pull in the rest of the soil and stomp around the bush with both feet to compact. Then let the hose run slowly for a very short time, enough to soak thoroughly, then pull the rest of the dry mixture about the plant and leave it that way.

(5) These bushes then will not need water again for quite some time, probably not at all in March or April unless the soil about the roots begins to approach dryness.

(6) Now prune the bushes back to within 6" to 8" of the ground. It is very helpful to cover the canes now with burlap squares and leave covered until the buds have sprouted on inch or more. Then they may carefully be removed.

(7) During the middle of April dust the bushes thoroughly with Rose Dust. For best results repeat every 10 days or two weeks.

(8 After the bushes have been planted for three or four weeks put about a handful of fertilizer about each bush and rake in lightly, then soak down. For best results repeat every two weeks during May and June.

How To Handle Upon Arrival

Take care of your nursery stock immediately upon its arrival. Check carefully to see that sizes and varieties you ordered were shipped.

If possible, plant at once when shipment is received. If conditions are unfavorable for planting, heel the plants in the ground.

Select a well drained location. Dig a trench deep and wide enough to hold the roots without crowding. Unpack the plants, cut all strings and place the roots in the bottom of the trench. Spread out the plants so the dirt can fill in about the roots. Regardless of whether the soil is dry or wet, put sufficient water in the trench to pack the soil firmly about the roots to exclude air. Then heap more soil on the roots.

Planting Distances

Give Plants Enough Room

The locality and soil should be considered in spacing fruit trees. Planting distances between trees depend primarily upon the type of tree, its purpose, the amount of rainfall, and the fertility of the soil. Orchard fruits make a more vigorous growth in heavy soils.

As a general rule the following distances are suggested.

Apples and Pears	25 to 30 feet each way
Apricots and Plums	16 to 24 feet each way
Cherries	20 to 25 feet each way
Grapes	6 to 8 feet each way
Peaches	20 to 24 feet each way
Pecans and Walnuts	40 to 50 feet each way
Raspberries and Dewberries	4 to 6 feet each way
Blackberries	4 to 6 feet each way
Boysenberries	6 to 8 feet each way

Visit Our Nursery

We would like to extend to you, your family and friends a cordial invitation to visit our Nursery. We are open six days a week and on Sunday afternoons from November 1 through April. First of course, you save money when you buy directly from the grower. Then, we also have a complete line of Evergreens to offer here at the nursery. Due to the weight of these balled evergreens we are unable to ship.

Come to East's Nursery in Amity, Arkansas and save. We will be looking for you.

EAST'S NURSERY
AMITY, ARKANSAS

Our Office and Storage Building—Equipped to handle your order promptly so it will reach you in live, growing condition.

WE PAY POSTAGE ON ALL ORDERS SENT PARCEL POST; ORDERS SENT BY EXPRESS ARE NOT PREPAID.

A 25% DEPOSIT MUST ACCOMPANY ALL C.O.D. SHIPMENTS. BALANCE SENT C.O.D. PLUS POSTAGE.

EAST'S GUARANTEE

Our guarantee is that you must be satisfied or your money will be refunded for any items you purchase from us that are not what we represent them to be. We guarantee our stock to be true to name and will replace any stock that should prove otherwise.

This guarantee cannot cover that over which we have no control, such as drouth, flood, freeze and hail. Trees occasionally die despite every precaution in shipping, handling and planting even the best of stock. Therefore, we are willing to help share your loss. If you will make your claim in writing by June 1 following planting we will replace at one-half price plus postage any stock that fails to grow.

In no case whatsoever will we refund more than the purchase price.

IMPORTANT INFORMATION

LOCATION. Our nursery is located in the heart of Arkansas, 40 miles from Nashville, one of the leading peach centers of the United States, 35 miles south of Hot Springs and 25 miles west of Arkadelphia, Arkansas, on Highway No. 8. Our soil is adapted to growing fine nursery stock with a perfect root sytem. It is our aim to produce stock our customers will be proud of and at the very lowest prices possible.

WE PAY POSTAGE on all orders of $2.00 or more. We ship all orders possible by parcel post; however, larger orders will be shipped by express and will be express collect. To avoid delay and expense to you, send full remittance with your order. A 25 per cent deposit is required on all C.O.D. orders. C.O.D. shipments are not sent postpaid.

DUE TO COST OF HANDLING we are unable to handle orders for less than 2.00. We do our best to ship orders same day received, but in some cases are unable to do so. All orders will be shipped as soon as possible after they are received.

OUR SHIPPING SEASON usually starts about November 1 or as early as possible after stock is perfectly dormant. If frosts are early we should be able to handle any order by December 1. The season usually ends about May 15. All orders will be shipped in rotation as they ar received.

INSPECTION. All our stock is State and Federal inspected. In addition to these inspections we inspect each tree when it is dug from the nursery row. Each bundle is carefully packed, labeled with an inspection certificate, so as to reach you disease free and in good condition.

Free Gifts With All Early Orders

We will send Free any one of the Selections listed below if your order amounts to $5.00 or more and full amount is sent with order. You may select any two Free Gifts if your order totals $10.00 or more. With each additional $5.00, select one more Free Gift. The Free Gifts you select must be included by you on the order blank. If you do not include premiums marked on your order blank none will be sent. If we run low on some Items we reserve the right to send other Free Gifts.

Gift No. 1—1 Peach Tree, 2 to 4 Feet
Gift No. 2—1 Spirea Van Houttei
Gift No. 3—1 Althea
Gift No. 4—1 Two Year Old Rose Bush
Gift No. 5—2 Concord Grape Vines

PEARS

BARTLETT. The favorite commercial pear. Fruit very large, juicy, orange-yellow in color with a soft blush. It is quite uniform in shape. The favorite for shipping, canning and eating. The tree is a strong grower and produces very young. Hardy and a regular bearer. Ripens in September.

KIEFFER. The well known canning and preserving pear. Fruit large, golden yellow often blushed by the sun. The most profitable to grow. Tree healthy, hardy and vigorous. Often the fruit needs to be thinned so as not to over-bear. Ripens in September and October.

GARBER. The fruit is similar to the Kieffer and ripens in August. The tree is healthy and bears very heavily. Fruit is delicious for eating or canning. Juicy and of excellent flavor.

DOUGLAS. One of the best early pears, ripens latter part of August. The youngest and heaviest tree to bear on our list. Two and three-year-old trees often produce a large amount of large, juicy, delicious fruit that is without a doubt the best eating pear grown. It resists blight and is fast taking the lead as a commercial variety.

Douglas Pear

Early Golden

APRICOTS

EARLY GOLDEN. This is a large, deep golden yellow fruit that is delicious and unexcelled for canning and preserving. The fruit is juicy and ripens early in the season. Freestone variety and self-pollenizing. Ideal for home garden as it bears young.

MOORPARK. Big, juicy, full-flavored apricot just right for canning and drying. One of the finest for deserts. Ripens to a beautiful orange color, both skin and flesh. Very mild and sweet. Trees are very hardy and thrifty.

ROYAL. A fine, large French variety. Skin dull yellow with an orange cheek, very faintly tinged with red. Ripens latter part of July.

RED DELICIOUS

EAST'S

Hardy Arkansas Grown Nursery Stock

We offer you the finest Fruit and Nut Trees, Berries, Roses, Flowering Shrubs and Shade Trees. Over 200,000 Fruit Trees Annually.

Our Shipping Season Starts About November 1 and Ends About May 15.

Well Rooted Trees

APPLES

YELLOW TRANSPARENT. Medium in size, clear waxy white, becoming pale yellow when fully ripe. Flesh white, tender, juicy and of excellent flavor. Tree small but very hardy and productive. One of the best early apples grown. Ripens in June.

RED JUNE. Medium in size, bright, shiny red. Flesh tender and mild. Good quality and very productive. One of the best for cooking and pies. Ripens about June 20.

LODI. A new variety of summer apple that bears when very young, often in two or three years after transplanting. The fruit is large, clear yellow with a slight red blush. A sure bearer. The tree is very vigorous and hardy. The fruit is similar to the Yellow Transparent only larger and a better shipper. The flesh is crisp and has an excellent flavor.

RED BIRD. One of the earliest red apples. Flaming red, ripening in June. Fruit is large in size, very fine flavor and one of the best quality of any red apple. Ripens at a date when the market is best. The tree bears young, annually and an immense crop.

TWENTY OUNCE. The fruit is exceptionally large, juicy and crisp. Green with a slight blush and red stripe. Tree thrifty and very productive. The best apple grown for home use. Brings top prices on any market.

RED JONATHAN. This is one of the best apples for the market, being out-sold by only one other apple. Jonathan cannot be praised too highly. It is solid red, good size, firm, juicy and keeps well. The flesh is white and brittle, with a flavor that cannot be beat. An excellent cooking and eating apple. It is hard to equal for hardness and produces when others fail. Used extensively as a filler and pollenizing variety. No commercial or home orchard is complete without this apple.

ROME BEAUTY. Large, round, mottled, striped in shades of red. Flavor and quality above the average. Appearance and size are its valuable points. Keeps well and a very good shipper. Always brings good prices.

STAYMAN WINESAP. An old favorite in any orchard A fine winter apple that is great for shipping and storing The fruit is medium size, firm, juicy, and red in color. The tree is thrifty, hardy and regular bearer when given the proper cross pollenization.

LODI

RED JUNE

YELLOW DELICIOUS. Our number one apple. Large in size and golden yellow in color. Most delicious flavor. The best suited apple for all types of soil and climate. The tree while not a large growing type is thrifty and extremely productive, coming into fruiting and producing an abundant crop while very young. The apple should be picked at just the right time and placed in storage for late winter use. Ripens late September.

RED DELICIOUS. One of the best red apples. Extra large, dark red in color. Flesh fine grained, crisp, juicy, melting and delicious. Bears annually, great yielder and hangs well on tree. Bears well in almost every state in the Union. Splendid keeper and shipper. Tree very hardy and usually lives to a very old age.

YELLOW DELICIOUS

WINESAP

JONATHAN

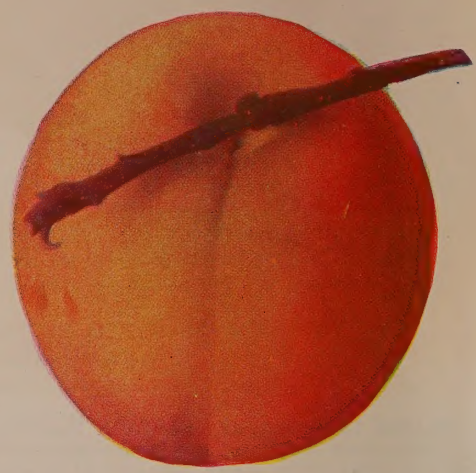
GIANT HALE

DIXIE RED. Medium size, yellow clingstone. Flesh firm but melting, medium textured, good flavor. Acquires its attractive red blush long before it is ready to pick. Early shipper.

DIXIE GEM. An early yellow-fleshed peach, ripens just ahead of the Golden Jubilee. The fruit is medium size, bright yellow with red overcast. It is almost a freestone when it is fully ripe and is usually semi-cling at the shipping stage.

GOLDEN JUBILEE. This is one of the best early peaches. Ripens almost three weeks ahead of the Elberta and is almost as large. The fruit is yellow with a red blush, the flesh is yellow, firm and juicy. It is excellent for dessert or cooking. This is a fine variety for the home garden because of the high quality fruit and being so early. It is rated very high as a market peach because of the resemblance to the famous Elberta. A good pollenizer. Freestone.

RED HAVEN. Bright red coloring on a yellow background. Fruit ripens uniformly. Has produced full crops when other varieties fail. Ripens about five days before the Golden Jubilee. Self-pollenizing. Good freezing qualities. Freestone.



ELBERTA

PEACHES

IMPROVED EARLY ELBERTA. A great commercial peach. Ripening about two weeks earlier than the Elberta. The first of its class to reach the market. A large, attractively colored, yellow-fleshed freestone peach. Commercial growers have welcomed this new peach for the early harvest. Starts bearing the second year and seldom misses a crop. Where quality, size and beauty are desired, plant this variety. Good freezing qualities.

HALE HAVEN. Large, beautifully colored, yellow-fleshed peach. Ripens about two weeks before the Elberta. A perfect freestone. This is one of the finest shipping and canning peaches grown, also excellent for freezing. Pollenizes other varieties.

FAIR BEAUTY. Ripens 10 days before the Elberta. Large, yellow peach with a beautiful red cheek. Can be hauled several hundred miles to market. It ripens at the time when highest prices are paid for peaches. You won't go wrong on this variety. Semi-cling.

SULLIVAN'S EARLY ELBERTA. A new red sport of the famous Elberta. Ripens 7 to 10 days ahead of its parent. Well adapted to any peach growing section. The tree and fruit characteristics are found to be almost identical with the Elberta. It is large in size, extra fine quality and shows to be one of the best shippers. We have long needed a good commercial peach to fill this ripening time. If your market demands quality and beauty, plant Sullivan's Early Elberta.

ELBERTA. This is the standard market peach wherever you go. It is the most widely grown and the one to which others are compared. Large yellow with a rosy blush on the sunny side, yellow flesh that is fine for eating, freezing or canning. The perfect shipper. Trees bear young, are hardy and self-pollenizing. Produces when others fail. There is no finer peach grown. Freestone. Ripens middle July.

GIANT HALE. This peach is extra large, round, highly colored with golden skin and flesh. Skin is almost fuzzless. Ripens approximately the same time as the Elberta. For best results plant with other varieties for pollination. Freestone.

OLD-FASHIONED RED INDIAN. A clingstone, very highly colored and red to the seed. One of the best picking peaches. The trees are unsurpassed for horticultural beauty. Fruit so large that it would not go in a pint cup. Do not confuse this peach with the ordinary Indian peach. Ripens just after the Elberta. Excellent freezing qualities.

All Season Orchard Collection

EARLY ELBERTA

RED INDIAN

GOLDEN JUBILEE

BOYSENBERRIES

BOYSENBERRIES

New Thornless Boysenberry. The newest development of the most delicious berries you have ever eaten. Huge crops of rich, tangy, juicy fruit borne on canes as smooth as velvet. The new berry ripens about ten days ahead of the older varieties. The flavor is a combination of Raspberry, Dewberry and Loganberry all packed into fruits nearly two inches long. Makes them excellent for pies, canning and desserts. By all means you must try a few of these fine berries.

Prices: 10 Plants for $1.00; 100 for $8.75

YOUNGBERRIES

A successful new addition to the berry family, being a cross between the Loganberry and the Dewberry. A rich, dark wine color; very large. Easily grown. Extra productive.

Prices: 10 Plants for $1.00; 100 for $8.75

DEWBERRIES

AUSTIN. Very large, black berry, highly flavored. For production, it rivals all Dewberries.

LUCRETIA. Early black, extra large berry. A very fine berry for the market.

10 Plants for $1.00; 100 for $8.75

CUMBERLAND

BLACKBERRIES

EARLY HARVEST

EARLY HARVEST. One of the earliest blackberries in cultivation. A compact, dwarf grower; fruit small and of good quality. Heavy bearer.

ELDORADO. The hardiest and sweetest blackberry. Berries are jet black in large clusters, very sweet and practically coreless. Keep a week or more after picking with quality unimpaired.

McDONALD. Enormously productive, outyielding any other variety of blackberry. Ripens two weeks before any other variety. Can be sold for extra price before the other varieties hit the market.

Prices: 10 Plants for $1.00
100 for $8.75

RASPBERRIES

CUMBERLAND. Black. The largest and best midseason blackcap. Healthy, vigorous, productive; of large, firm berries, fine quality. One of the hardiest varieties.

LATHAM. Red. Undoubtedly the best looking red Raspberry on the market. Produces enormous crops of large, dark red berries of the finest quality.

ST. REGIS EVERBEARING. Red. Another of our fine red varieties. Bears fruit all summer until autumn.

Prices: 10 Plants for $1.00; 100 for $8.75

METHLEY

PLUMS

RED JUNE. The best early red plum, ripening in early June. Usually a sure-cropper because of the late bloom. Medium to large in size and deep red in color. Flesh light lemon-yellow, firm, moderately juicy. Tree upright, hardy and productive.

ABUNDANCE. Fruit very large, ripening in the latter part of June. Amber, turning to a rich cherry red when ripe. Flesh light yellow, very juicy and tender. Excellent for canning.

METHLEY. One of our best plums. Ripens in early part of June. Large, dark red; flesh red to the seed. Very juicy and sweet. No home orchard is complete without this variety.

BRUCE. This is one of the best plums that grows in the South. The tree is very healthy, early to bear and produces a large red plum that cannot be beat for both flavor and size.

BURBANK. Large cherry-red plum. Fresh amber-yellow, with rich sugary flavor, high quality and very productive.

PRICES ON ALL PLUM TREES

	Each	10
2 to 3 feet	$ .50	$4.50
3 to 4 feet	.75	6.50
4 to 5 feet	1.00	8.50

GRAPES

PRICES ON ALL GRAPE VINES

	Each	10	100
1-Year Vines	$.25	$2.00	$15.00
2-Year Vines	.30	2.50	20.00

CONCORD. It never fails. Grown successfully in every state in the Union. Large bluish black grape. The grape's skin is very tender, but sufficiently firm to carry to a distant market. Sweet and juicy. Vines grow very fast and bear the second year. Ripen in August.

CAMPBELL'S EARLY. A large black grape adapted to a wide area. Clusters and berries are large and perfect. Flavor rich and sweet. Fine keeper. Hardy and productive. Ripens in July.

DELAWARE. The Earliest red grape. Ripens 10 days before the Concord, medium size fruit. Flesh is juicy and sweet, making it ideal for dessert and wine. Vines are hardy and productive. Very popular in the home vineyard.

MOORE'S EARLY. This variety ripens three weeks earlier than the Concord. Rich black in color, always loaded and always enjoyed. Taste is wonderful when picked from vines. Fruit very large. A vigorous grower and very productive.

FREDONIA. Big, compact cluster of black grapes. Two weeks ahead of the Concord. Fredonia withstands the late frost. Has the most wonderful flavor. Heavy producer, fine shipper. A profit winner.

FREDONIA

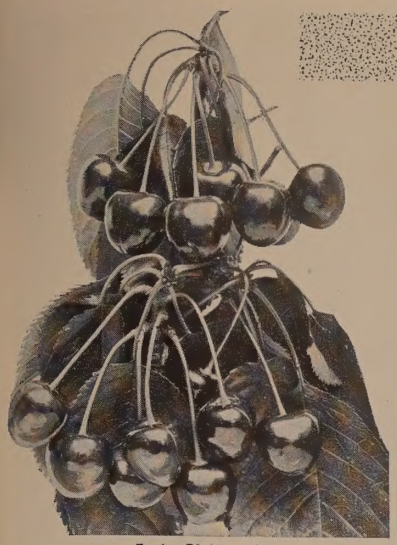
DELAWARE

CONCORD

Notice—Commercial Planters

We grow our own trees. Our trees are as good as can be produced. If more than 100 trees are wanted, please write us for special prices. We are especially interested in commercial planting.

CHERRY TREES



Early Richmond

EARLY RICHMOND. A good old variety, perfectly hardy, uninjured by the most severe winters. One of the most valuable and popular varieties, used extensively by canners. Excellent for pies and preserves.

MONTMORENCY. Considered by fruit growers to be the finest sour cherry grown. Fruit large, firm, ships perfectly. Bears very young, produces tremendous money making crops and is successful anywhere. A large per cent of all frozen cherries used for pies are Montmorency.

BLACK TARTARIAN. Here is the best, most dependable and successful of all sweet cherries. You can always depend on this variety for a good crop. The sweet mild flavor has won nation-wide popularity with commercial and home growers.

PRICES ON ALL CHERRY TREES

	Each	10
2 to 3 feet	$1.00	$ 9.00
3 to 4 feet	1.25	11.00

Montmorency

Althea (Rose of Sharon)

FLOWERING SHRUBS

Make Your Home More Attractive

ALTHEA. (Rose of Sharon.) Tall growing shrub, with beautiful double flowers that shower blooms from midsummer until frost. Unusually hardy. Your choice of red or purple.
Price: 18-24 in., 55c each; 2 for $1.00

CRAPE MYRTLE. By far the best known, most popular and one of the finest flowering shrubs in the south. Blooms from midseason until frost. Watermelon red or pink.
Price: 18-24 in., 65c each; 2 for $1.25

FORSYTHIA. (Golden Bell.) A showy mass of yellow flowers early in April before the leaves appear. Both the grace and beauty give it a prominent place in shrub plantings.
Price: 18-24 in., 50c each; 2 for 90c

HYDRANGEA P. G. The most striking of all shrubs. It produces huge white cone-shaped flowers in August, turning pink and finally bronze in September. Ideal for cut flowers.
Price: 18-24 in., 90c each; 2 for $1.75

SPIREA BILLIARDI. Rose-colored flowers in large cone-shaped spikes that bloom nearly all summer. Fine for cut flowers and a showy shrub in any landscape job. Grows 4 to 5 feet high. Excellent for untrimmed hedge.
Price: 18-24 in., 60c each; 2 for $1.00

MOCK ORANGE. A choice shrub, with a wealth of large, creamy-white flowers that have the texture and fragrance of orange blossoms. Blooms in May and June.
Price: 18-24 in., 60c each; 2 for $1.10

SPIREA (Van Houttei). One of the most common but one of the most beautiful of all shrubs. A medium size shrub covered with pure white flowers in early spring.
Price: 18-24 in., 50c each; 2 for 90c

WEIGELA (Rosea). Rose-pink with a deeper shade in the throat, it is very free blooming. Blooms in April and May. But it is still an ornamental asset to every yard the remainder of the summer with its beautiful green foliage.
Price: 18-24 in., 50c each; 2 for 90c

WEIGELA. (Eva Rathke). Most distinct variety, being later (June) and most conspicuous with deep carmine-red flowers.
Price: 18-24 in., 60c each; 2 for $1.10

Forsythia

Hydrangea P. G.

Mock Orange

BROADLEAF EVERGREENS

NANDINA. A beautiful and most popular evergreen with bright red berries in the winter. The leaves vary from green to a brilliant red in the winter. Highly recommended for fill-in planting about the house and grounds.
Price: 15 to 18 inches, 75 cents each.

ABELIA. Dark Glossy green leaves are perfectly contrasted with the delicately perfumed, little white flowers produced from early to late. The arching branches are graceful, but the plant may be sheared to any shape and to any size you desire.
Price: 15 to 18 inches, 75 cents each.

AMUR RIVER PRIVET HEDGE. The very best Evergreen Hedge. Hardy in all the South and holds its leaves all winter. Can be pruned any time and be sheared to any shape or height. Plant 12 to 18 inches apart.
Price: 18 to 24 inches, 25 Plants, $4.95; 100 Plants, $15.00.

Abelia

SHADE AND ORNAMENTAL TREES

Chinese Elm

REDBUD. Heart-shaped leaves; rosy-purple flowers in March before the leaves appear. A satisfactory flowering tree because it is so hardy and has no diseases. Why not start a "Redbud Trail" in your community?
Price: 2 to 4 feet, 90 cents each.

TULIP-POPLAR. A tall pyramidal tree rising to a great height. Large glossy leaves; huge, tulip-shaped flowers in spring. Handsome and distinctive.
Price: 2 to 4 feet, 90 cents each.

CHINESE ELM. A native of China. Very rapid growing, extremely hardy. Leaves out early in the spring and leaves stay on longer in autumn. For a quick shade tree try Chinese Elm.
Price: 4 to 5 feet, 90 cents each.

Lombardy Poplar

WEEPING WILLOW. One of America's most beautiful shade trees. A gorgeous shade that invites you to a cool, restful spot during the hot summer evenings. A bank of Weeping Willows makes a lovely background for an outdoor living room. Plant wherever a graceful shade is needed.
Price: 4 to 5 feet, 90 cents each.

MIMOSA. (Weeping Silk Tree.) The Mimosa makes a beautiful shade tree, has an umbrella-like top, with light green feathery foliage that folds up at night. Fragrant, fluffy pink blossoms literally cover the arching limbs in the summer. Extremely hardy and adapted to all sections. Do not plant in wet spots.
Price: 2 to 4 feet, 90 cents each.

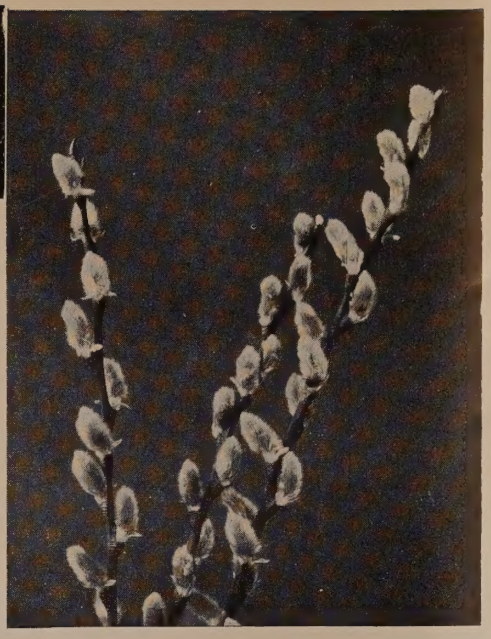
ALLRED PLUM. One of the most beautiful ornamental trees to produce delicious fruit. Produces the finest, sweet, juicy, red plums you ever ate. No other plum offers so much beauty and good eating during the season. Well named: foliage, stems, branches, fruit, even the seed is ALLRED.
Price: 2 to 4 feet, 75 cents each.

Weeping Willow

FLOWERING PEACH. A small tree that one can find a place for in almost any garden for it does not require a great deal of space. The branches are covered with rosettes of flowers in early spring. Hard pruning each year after the blooms are gone will produce greater profusion of flowers the following season. Double red or white.
Price: 2 to 4 feet, 75 cents each.

LOMBARDY POPLAR. A handsome tree reaching far into the sky. Stands erect; tall and ever graceful. Beautiful in rows as screens or background.
Price: 2 to 4 feet, 75 cents each.

SUGAR MAPLE. Commonly known as Hard Maple, it is one of the most desirable trees grown. A straight, dense grower with heavy foliage which colors brilliantly in the fall. Every one should have at least one Sugar Maple.
Price: 3 to 4 feet, 90 cents each.



Pussy Willow

PUSSY WILLOW. A small treelike shrub with attractive leaves two inches long and an inch wide. Its popular appeal is the conspicuous silky catkins which bud in the fall, and make those "springy" bouquets just as the snow melts in the spring.
Price: 2 to 4 feet, 90 cents each.

Red Bud

THOMAS BLACK WALNUT

This giant thin-shell Black Walnut will grow anywhere. Usually bears within one to two years after planting. Pick bushels of these big, delicious walnuts from your own trees and store them for the winter. Fine for eating fresh or making delicious candies. The tree is a fast grower and soon will make a beautiful, valuable shade tree for your home.

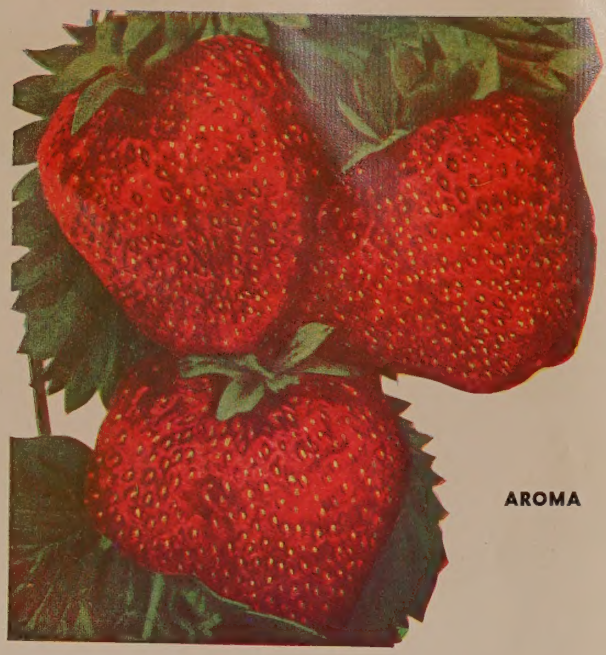
STREAMLINER



AROMA

EVERBEARING STRAWBERRIES

GEM. A large, sweet, juicy berry. Considered the "gem" of everbearers. Good quality, firm glossy red. Good shipper, heavy producer. Fine for home gardens.

Gem Prices: 25 for $1.00; 100 for $2.95

NEW STREAMLINER. This excellent everbearer has everything; enormous size, rich red color, excellent flavor and a big producer. A wonderful variety for eating fresh, canning or freezing. Bears for two or three months same year planted.

New Streamliner Prices: 25 for $1.00; 100 for $3.95

STRAWBERRIES

SPRING BEARING VARIETIES

BLAKEMORE. Extra early, bright red berry favored for large-scale planting and long-distance hauling. Always bear a big crop of firm, fine flavored fruit.

DUNLAP. The old standby. A midseason variety that grows on all types of soil and in all climates. A good producer and a fine berry.

AROMA. Glossy red, pleasing flavor, very productive and of great market value. Superior to most late varieties.

IMPROVED KLONDYKE. The perfect strawberry for home or market. The berries are uniform in shape and size. Dark red in color and mild, delicious flavor. A strong productive bearer that sells for fancy prices.

Above varieties: 25 for 75c; 100 for $1.75

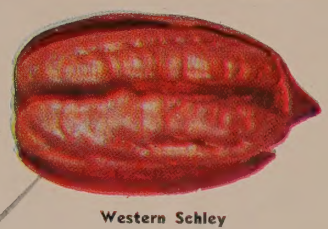
PAPER SHELL PECANS

Success

SUCCESS. The most popular eastern variety. The nut is large and oblong with smooth, creamy kernels that release perfectly from the shell. The tree is a vigorous grower and resistant to scab.

Burkett

BURKETT. This variety is one of the leading pecans. Its flavor cannot be equalled. It is a regular producer of large, fat nuts that bring top market prices. Plant Western Schley with Burkett for perfect pollination.

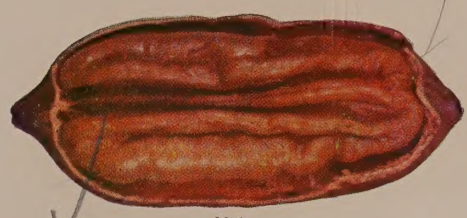


Western Schley

WESTERN SCHLEY. A long, well shaped, beautiful nut. The shell is very thin and soft. The tree is healthy, strong grower, early and heavy producer.

Stuart

STUART. This variety is best suited for all sections of the country and all types of soil. It is a good producer and a very fast grower. The nut is large, well filled, sweet and brittle, one of the earliest ripening of all standard pecans. Vigorous trees, seldom misses a crop.



Mahan

GIANT MAHAN. The world's largest pecan. The nuts look similar to the Western Schley but are twice as large. Mahan is also a true brittle Paper-Shell, and brings more money than any other pecan growth. Mahan is a heavy producer and is adapted to all sections. This variety has become very popular due to the healthy, vigorous growing tree which makes a beautiful shade specimen. Plant the variety for home or commercial planting.

Compare our prices with other nurseries and you will find we have the leading varieties and at a much cheaper price. Give us a trial order.

PATENTED ROSES

CHRYSLER IMPERIAL. In color this rose is unmatched by any other red rose. Its vivid, rich tones of crimson are enhanced by darker overtones of glowing oxblood red.

KATHERINE T. MARSHALL. A rose of rare beauty and delicacy of form. The loveliest possible shades of coral pink, underlaid with soft gold. Blooms are slow-opening, heavy petalled and sun-resistant.

NOCTURNE. This is a beautiful dark red with maroon shadings. The flowers are pleasantly fragrant. This rose has one of the longest, most perfect, streamlined buds of any red rose.

MIRANDY. A gorgeous, fragrant, red rose that takes its place with the finest red roses of the world. The big buds are deep rich red with black shadings opening to Chrysanthemum-red.

PEACE. This glorious rose is almost unbelievable in its beauty, size and lasting qualities. The buds are golden yellow enlivened by a flush of vivid pink at the petal edges.

MOJAVE. Glowing apricot-orange. Slender buds and double fragrant flowers, borne singly on long stems. Blooms from early spring to late fall. Tall growing.

HELEN TRAUBEL. Sometimes lively pink but more often with lovely apricot tints. This is a 5 to 6-inch flower with high center, spreading out as it opens. Buds are long and slim. Very free flowering and dependable, it will be a favorite no matter what other varieties you have.
